### **Liquidity and capital resources**

As at December 31, 2014 the Company had a working capital deficiency of \$208,581 as compared to a working capital of \$480,655 as at December 31, 2013.

Since inception, we have financed operations primarily from the issuance of Common Stock. We expect to continue Common Stock issuances and issuance of promissory notes to fund our ongoing activities.

We currently do not have sufficient resources to carry out our entire business strategy. Therefore, we will need to raise additional capital to fund our operations sometime in the future. We cannot be certain that any financing will be available when needed. Any additional equity financings will be dilutive to our existing stockholders, and debt financing, if available, may involve restrictive covenants on our business and also the issuance of warrants or conversion features which may further dilute our existing stockholders.

We expect to continue to spend capital on:

1. marketing and brand promotion of UMeLook; and
2. development, sales and marketing activities related to UMFun, our digital education platform.

The inability to raise capital would have a material adverse effect on the Company.

### **Internal control over financial reporting**

During the three-month period ended December 31, 2014, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
