## **Liquidity and capital resources**

As at March 31, 2016 the Company had a working capital deficiency of \$978,583 as compared to a working capital deficiency of \$363,535 as at March 31, 2015.

Since inception, we have financed operations primarily from the issuance of Common Stock. We expect to continue Common Stock issuances and issuance of promissory notes to fund our ongoing activities.

We currently do not have sufficient resources to carry out our entire business strategy. Therefore, we will need to raise additional capital to fund our operations sometime in the future. We cannot be certain that any financing will be available when needed. Any additional equity financings will be dilutive to our existing stockholders, and debt financing, if available, may involve restrictive covenants on our business and also the issuance of warrants or conversion features which may further dilute our existing stockholders.

We expect to continue to spend capital on:

1. development, sales and marketing activities related to UMFun, our digital education platform; and
2. expansion into the English language training & test prep business.

The inability to raise capital would have a material adverse effect on the Company.

## **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our investors.

## **Internal Control Over Financial Reporting**

During the three-month period ended March 31, 2016, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **Limitations on Internal Controls**

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

## **Legal Proceedings**

The Company may become involved in certain legal proceedings and claims which arise in the normal course of business. The Company is not aware of any outstanding or pending litigation.

## **Risk Factors**

There have not been any material changes in the risk factors from those previously disclosed in our Annual Report on Form 20-F for the year ended September 30, 2015.

## **Unregistered Sales of Equity Securities and Use of Proceeds**
